

Biography-Christian Osborne

Oakville Rangers Hockey Club

As longtime resident of Oakville, I have a keen appreciation of the role that hockey and the Oakville Rangers plays in our community. I was a MOHA house league player and my son played for 10 years

in the Ranger rep system. The health and social benefits that participation plays are difficult to measure, but certainly irrefutable.

The Oakville Rangers have been an integral part of our family for 2 generations. I have been honoured to give back to the Rangers in several different roles and hope to continue to do so.

My experience in business and the not-for-profit world has enabled me to contribute to the efforts of the ORHC when asked to serve. They include but are not limited to.

10-year board member of the largest provincial sports organization Vice-President for 2 years of the same organization

- Longest serving President of Golf Ontario in 100 years
- Provincial representative of the largest national sports organization Governor of Golf Canada
- Lifetime Governor of Golf Ontario
- Chair of the World Junior Girls Golf Championship
- Chair of the Aboriginal and Disability Golf Championships
- Committee member for the 2015 Pan Am Games
- Member of over 30 provincial and national sports boards and committees

Sports have molded my life. Playing NCAA D1 sports had a profound impact that resonates with me today. I am confident that the experiences I have been blessed with would provide some benefits to the ORHC.

In my professional life, I am the owner of a well know automotive manufacturer with over 300 employees and dependants operating in over 30 countries.

I hold a BBA, an MBA, and have completed executive studies at the University of Toronto (Rotman), The Ohio State University and the University of Notre Dame.

My sincere appreciation for being considered for the Oakville Rangers Hockey Club board and welcome any questions you might have.

Christian Osborne.
