

Biography - Gina Bruce

As a parent of five boys who have played with the Oakville Rangers—four in house league and one as a rep goalie—I have a deep, firsthand understanding of the organization and the families it serves. Over nearly 20 years of involvement with the Club, I have contributed to several volunteer roles, including team manager, trainer, trainer-at-large, and, most recently, with the Winter Classic. For more than five years, I have served as minute taker at Ranger's Board meetings, including the AGM/AM.

Professionally, I bring more than two decades of experience in health care and health care management. I have a degree in Kinesiology and certificates in both athletic therapy and fitness assessment and exercise counselling. Within the last 10 years I have worked as a licensed private investigator and am the owner of a licensed private investigation agency in Ontario.

I bring a thoughtful, analytical, objective, and practical approach, and I am inquisitive, persistent, and committed to supporting the Rangers community.

My family's involvement also extends beyond my own volunteer work: my spouse has served as a trainer, assistant coach, and head coach at various levels for close to 20 years and my eldest son has also been an assistant coach.

I thank you in advance for considering me for the Oakville Rangers Hockey Club Board. I would welcome the opportunity to answer any questions.
